

Facility & Equipment

Our Eyes are on the Future

Matlock recently doubled our workspace with a state-of-the-art **65,000** square foot facility. This brand new building contains the high-tech tools needed to keep your motors up and running for years to come

Diagnostics

- Dynamometer can test up to 1000 HP at 3600 rpm & 4000 ft lbs of torque
- Real time data acquisition readouts
Manual control and computer controlled
- Online Mitchell Test System allows us to access nearly all Servo testing data, giving us the highest Servo repair capability possible in the industry

Steelman Bake Oven

- Dimensions fit up to 12x12x12 increasing our motor size capability
- Charter to track temp

Heavy Lifting

- Our large cranes lift the big and REALLY big
- 8 1 ton jib cranes
- 1 2 ton jib crane
- 2 25 ton overhead cranes (tandem for 50 ton lifting capacity)

65,000 SQ FT

Increased warehouse space accommodates our expansive warehousing & inventory programs.

Machine Department

- New Fryer CNC Milling Machine
- Advancing and increasing our machine shop capabilities
- Giving our customers the highest degree of quality

New Disassembly Department

A completely isolated department to ensure the highest standards of cleanliness with brand new equipment including:

- 20 x 15 wash booth
- New hydro-tek steam pressure washer
- New small paint booth for dirty room

MATLOCK
ELECTRIC MOTORS

Yesterday's Service. Tomorrow's Technology. Today.
